

The EVR Scanning and Tagging Guidelines identifies the documents that may be required for each transaction that can be processed by dealers on the EVR program along with the approximate tag (label) that should be used for those documents in your software. The exact name of the tag in your software may vary slightly.

Disclaimer: The documents listed in the tables that follow represent the possible required documents for each transaction. Some of the documents listed may be required for every transaction of that type while others are common supporting documents that may or may not be required to be collected and scanned for a customer’s given scenario.

The footnotes below each table help determine when select documents are required or relay select policies surrounding the documents, but for more detailed information the required documentation refer to your EVR Reference Guides or the specific job aids associated with each transaction.

Prior to processing any transactions on EVR:

1. **Always review your paperwork!** Ensure all documents are completed and signed. And that all information is correct and matches across your documents appropriately.
2. Write your first initial and full last name in the upper right-hand corner of all RMV Applications being used for and scanned into the transaction (this includes the RTA, Duplicate Title Application, Duplicate Registration with Amendment Request Form, and Affidavit for Cancellation of Registration)
3. For all sale or change of ownership transactions,
 - ✓ **Make sure you have the physical Certificate of Origin or Title!** These documents are always required and a vehicle registration is NEVER allowed to be used in lieu of a title to process.
 - ✓ Review the chain of ownership on either the Certificate of Origin or Title as well as all corresponding assignments, the odometer reading, and VINs to make sure this information is complete and correct. Make sure you do not process any titles with a salvage brand or salvage title type. Refer to the [EVR Rules for Title Processing](#) job aid for more information!

After processing any transaction on EVR:

1. Print an extra copy of the RMV Fee receipt to include with the original documents that you must retain and store for the transaction.

IMPORTANT: Once a transaction is finalized, you can’t scan additional items to that transaction. Contact your EVR Compliance Officer immediately if you need to add a document to the scanned items.

Document Retention and Destruction FAQs

Question: How long do we need to retain copies of documents for?

- **Answer:** The Permit Holder must securely retain the originals of the scanned documents for at least 90 calendar days. The Permit Holder must retain backup copies of the original documents and paperwork in either a hardcopy or electronic format for 5 years.

Question: Are there any rules for how we store the backup copies of the original documents?

- **Answer:** Electronic backup copies can be maintained by the Service Provider on the behalf of the Permit Holder and must be available for RMV inspection upon request. If physical copies of the documents are retained, they do not need to be retained on-site at the Permit Holder location but must be available for RMV inspection within 24 hours of such a request

Question: Do the documents need to be shredded on the 90th day exactly?

- **Answer:** Once the Permit Holder has received instructions to dispose of the original documents, the Permit Holder must, within 30 calendar days, dispose of these documents in a manner that meets the requirements of MGL Chapter 93i §2. Once the documents are placed in the locked shredding bin, they can be considered destroyed. Documents should be memorialized in the locked shredding bin by the 120th day of retention at the latest.

Question: What are the shredding requirements for the documents?

- **Answer:** The Permit Holder must use the services of a company that specializes in document destruction. The Permit Holder is not allowed to shred their own documents and the documents cannot be transported offsite by the Permit Holder to a shredding company.

Question: Do we need a receipt from the shredding company after the documents have been destroyed?

- **Answer:** Yes. The Permit Holder must retain a receipt from the destruction company that indicates the number of transactions that were destroyed, the to/from dates of the transaction (the date of the earliest transaction to the date of the most recent one), and the date on which the documents were destroyed. This receipt must be retained for audit purposes for at least 1 year.

Question: How will I know when the documents are eligible for destruction?

- **Answer:** After the 90 days has passed on a periodic basis that will vary by the quantity of processed transactions; the Permit Holder will initiate and the Service Provider will pull the Document Destruction Details to indicate which documents are eligible to be destroyed. This message will be by Permit Holder location and will return the last date documents were destroyed and the current “up to” date of documents that are eligible for destruction.

Question: How do I indicate to the RMV that the documents have been destroyed?

- **Answer:** Once the records are destroyed, the Permit Holder will memorialize this by initiating the Service Providers version of the Document Destruction transaction that will forward the “from/to dates” of the documents that have been destroyed to the RMV. The steps for how to process this should be included in your Service Provider’s software training.
